An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

1. Please insert the following text at the beginning of the specification under the title main title and before the background of the invention. ---"This application is a 371 of PCT/EP2004/008201 filed July. 22, 2004. This application claims priority from German Patent Application No. 10333794.6 filed on July 24, 2003, which is hereby incorporated by reference herein"
2. This application is in condition for allowance except for the presence of claims 1-54 directed to a group non-elected *without traverse*. Accordingly, claims 1-54 have been cancelled.

Examiner's Comment

Applicant has clearly and correctly presented their continuity information in the Oath/Declaration dated 2/2/2007. However, applicant did not provide a statement of continuity in their specification. Unable to contact applicant, the examiner has provided such a statement in the examiner's amendment below in order to put the application in condition to print and therefore expedite prosecution. If applicant has any questions regarding this examiner's amendment, applicant may contact the examiner at the number cited below.

Allowable Subject Matter

3. Claims 55-64 are allowed.
4. The following is an examiner's statement of reasons for allowance: The prior art taken singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper.

In regard to independent claim 55, the prior art taken either singly or in combination fails to anticipate or fairly suggest a computer implemented method for use with an aberrometer/wavefront sensor system including compression, threshold calculation, and multiple coordinate parameter determination; recited together in combination with the totality of particular features/limitations recited therein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
